## MULTIPLE PET BOARDING POLICY AND RELEASE

We understand that some families would like their pets to board together in the same kennel or run. However, pets who get along well at home may react differently in a boarding situation.

- ❖ Multiple pets boarding together MAY be allowed at our doctor's discretion.
- ❖ For safety reasons, pets greater than 30 lbs. are not allowed to board together.

If you wish for your pets to board together, please read and sign below. If this form is not signed your pets WILL NOT be boarded together.

I understand that boarding multiple pets together, in the same run or kennel, may lead to the illness, injury or death of one or more pets. Should illness or injury occur, I will be financially responsible for all charges, including but not limited to, examinations, medications, surgery, etc.
